SUBJECT AND AUTHOR INDEX

Ades, C. S., Photo-elasticity 214
Aidemocrinus, characters of Aidemocrinus 79
Allagecrinidae Carpenter and Etheridge 116
classification of Allagecrinidae 111
development of multiple-armed radials of Allagecrinidae 108
evolution of radial asymmetry of Allagecrinidae 105
evolutionary development of Allagecrinidae 102
geologic distribution and inferred phylogenetic relations of Allagecrinidae Carpenter and Etheridge (emend.) 115
microcrinoids that have been referred to Allagecrinidae 71
relationships of family Allagecrinidae, with description of new species from Pennsylvanian rocks of Oklahoma and Missouri 55
Allagecrinids, origin of allagecrinids and catillocrinids 102
Allagecrinus, anal tube of Allagecrinus 68
arms of Allagecrinus 66
austinii Carpenter and Etheridge 57
bassleri Strimple 67, 118
Carpenter and Etheridge 57, 116
characters of Allagecrinus 63
constellatus, n. sp. 118, 120, 121, 136, 137
diagram of dorsal cup of Allagecrinus 88
dignatus, n. sp. 116, 118, 136
distribution of Allagecrinus 70
dorsal cup of Allagecrinus 64
drawings of dorsal cups of Allagecrinus 118, 119, 121
garpelensis Wright 118
oral plates of Allagecrinus 69
pecki, n. sp. 122, 123
relationships of Allagecrinus and catillocrinid genera 94
sp. 121, 126, 136
species that have been referred to Allagecrinus 70
stem of Allagecrinus 70
strimplei Kirk 67, 118
Allocatillocrinus, arms of Allocatillocrinus 131
characters of Allocatillocrinus 87
diagram of dorsal cup of Allocatillocrinus 88
drawings of dorsal cups of Allocatillocrinus 128, 129
group of Allocatillocrinus 87
rotundus, growth series of Allocatillocrinus rotundus, n. sp. 96

Allocatillocrinus, rotundus, measurements of Allocatillocrinus rotundus, n. sp. 130
rotundus multibrachiatus, n. subsp. 128, 132, 137
rotundus, n. sp. 127, 128, 136
species referred to Allocatillocrinus 90
Wanner 127

Branson, E. B., and Mehl, M. G., Caney conodonts of Upper Mississippian Age 167
Conodonts from Keokuk formation 179
Recognition and interpretation of mixed conodont faunas 195
Record of typical American conodont genera in various parts of Europe 189
Calceocrinus, anterior view of crown of Calceocrinus 109
Callimorphocrinus astrus J. M. Weller 74
characters of Callimorphocrinus 72
Caney conodonts of Upper Mississippian Age 167
Catillocrinid genera, relationships of Allagecrinus and catillocrinid genera 94
Catillocrinids, origin of allagecrinids and catillocrinids 102
Catillocrinus, anal sac of Catillocrinus 83
arms of Catillocrinus 83
catillocrinid genera of group of Catillocrinus 85
characters of Catillocrinus 80
diagrams of arm facets, arms, and radials of Catillocrinus 104
distribution of Catillocrinus 84
dorsal cup of Catillocrinus 80
stem of Catillocrinus 84
tennesseeae Shumard 67
turbinatus Springer 67
Conodonts, age of conodont fauna 168
basal Welden fauna 204
Caney conodonts of Upper Mississippean Age 167
conodonts from Cedar Valley 205
conodonts of Glenwood beds 200
collecting localities of Keokuk conodonts 180
description of genera and species 181
from Keokuk formation 179
nature of Keokuk fauna 180
new Albany shale 201
phantom formations 208
Recognition and interpretation of mixed conodont faunas 195
Record of typical American conodont genera in various parts of Europe 189
stratigraphic admixtures 197
stratigraphic leaks 206
Crinoids, New genera of Pennsylvanian crinoids from Kansas, Oklahoma and Texas 32

Cavusgnathus cristata Branson and Mehl, n. sp. 177
cristata, n. sp. 178
Harris and Hollingsworth 177

Denison Scientific Association, Report of Permanent Secretary for year 1939–1940 210
Doliognathus 194
Branson and Mehl 193

Elibatocrinus catactus, n. gen., n. sp. 43, 53
concinnulus, n. gen., n. sp. 42, 53
leptocalyx, n. gen., n. sp. 36, 39, 40, 53
n. gen. 35
notabilis, n. gen., n. sp. 39, 41, 53
Eucatillocrinus bradleyi (Meek and Worthen) 67
characters of Eucatillocrinus 86
diagrams of arm facets, arms, and radials of Eucatillocrinus 104
Euprioniodina? sp. 178
Ulrich and Bassler 171
Europe, Record of typical American conodont genera in various parts of Europe 189

France, Wesley C., Adsorption and crystal habit modification 213
Franck, Kurt, Modern lighting practice 216

Galateacrinus allisoni, n. gen., n. sp. 39, 49, 54
ewersi, n. gen., n. sp. 48, 54
n. gen. 45
ornatus, n. gen., n. sp. 39, 51, 54
stevensi, n. gen., n. sp. 39, 46, 48, 54
Gas amplification of photo-electric currents, apparatus used in investigation 147, 166
amplification of photo-electric currents for high values of E/P 139
Gnathodus linguiformis Branson and Mehl, n. sp. 183, 188
Pander 172, 183
pustulosus Branson and Mehl, n. sp. 172
pustulosus, n. sp. 178
texanus Roundy 173, 178
Gondolella sp. 194
Stauffer and Plummer 194

Handel, Neil Edward, Gas amplification of photo-electric currents for high values of E/P 139
Hartsough, William, State of Ohio and its relief problem 216
Hibbardella abnormis Branson and Mehl, n. sp. 184, 188
sp. indet. 178
(?) sp. indet. 176
Ulrich and Bassler 175, 184

Hindeodella undata Branson and Mehl, n. sp. ... 169
undata, n. sp. ... 178
sp. ... 178
Ulrich and Bassler ... 169
Hybochilocrinus americanus (Rowley) ... 74
characters of Hybochilocrinus ... 77

Icriodus ... 192
cf. I. curvatus Branson and Mehl ... 194
curvatus Branson and Mehl ... 194
Inadunata Wachsmuth and Springer ... 35, 116
Ionization by collision ... 140
Isocatillocrinus, characters of Isocatillocrinus ... 91
diagram of dorsal cup of Isocatillocrinus ... 88

Johnson, Douglas, Mysterious craters of Carolina Coast ... 215

Kansas, New genera of Pennsylvanian crinoids from Kansas, Oklahoma and Texas ... 32
Keokuk formation, Conodonts from Keokuk formation ... 179
King, Horace, World of Tomorrow: the New York World's Fair ... 210

La Paz, Lincoln, Distribution and detection of meteoric iron in earth ... 211
Ligonodina levis Branson and Mehl, n. sp. ... 185, 188
? sp. ... 178
tenuis Branson and Mehl, n. sp. ... 170
tenuis, n. sp. ... 178
Ulrich and Bassler ... 170, 185
Lindsey, A. W., Evolution today ... 211
Lonchodina? sp. ... 178
sp. ... 178
Ulrich and Bassler ... 171

Mehl, M. G., and Branson, E. B., Caney conodonts of Upper Mississippian age ... 167
Conodonts from Keokuk formation ... 179
Recognition and interpretation of mixed conodont faunas ... 195
Record of typical American conodont genera in various parts of Europe ... 189
Metalonchodina Branson and Mehl ... 172
? sp. ... 178
Microcrinoids, development of arm facets of microcrinoids ... 125
Miller, Freeman D., Recent advances in astronomy ... 215
Missouri, Relationships of family Allagecrinidae, with description of new species from Pennsylvanian rocks of Oklahoma and Missouri ... 55
Moore, Raymond C., New genera of Pennsylvanian crinoids from Kansas, Oklahoma and Texas ... 32

Moore, Raymond C., Relationships of family Allagecrinidae, with description of new species from Pennsylvanian rocks of Oklahoma and Missouri 55
Mycocrinus, characters of Mycocrinus 85
diagrams of arm facets, arms, and radials of Mycocrinus 104

Neocatillocrinus, characters of Neocatillocrinus 90
diagram of dorsal cup of Neocatillocrinus 88

Oklahoma, New genera of Pennsylvanian crinoids from Kansas, Oklahoma and Texas 32
Relationships of family Allagecrinidae with description of new species from Pennsylvanian rocks of Oklahoma and Missouri 55
Ozarkodina Branson and Mehl 177, 184
mutabilis Branson and Mehl, n. sp. 177
mutabilis, n. sp. 178

Palmatolepis 192
cf. P. glabra 194
glabra? Ulrich and Bassler 194
sp. 194
sp. indet. 194
Paracatillocrinus, characters of Paracatillocrinus 86
diagrams of arm facets, arms, and radials of Paracatillocrinus 104
Photo-electric currents, Gas amplification of photo-electric currents for high values of E/P 139
Pisocrinus, diagrams of arm facets, arms, and radials of Pisocrinus 104
Poteriocrinitidae Roemer 35
Prioniodus cassilaris Branson and Mehl, n. sp. 186, 188
Pander 173, 186
scitulus Branson and Mehl, n. sp. 173
scitulus, n. sp. 178
sp. indet. 186, 188
varians Branson and Mehl, n. sp. 174
varians, n. sp. 178

Scaliognathus 194
anchoralis Branson and Mehl 194
Branson and Mehl 193
Secretary's report, Report of Permanent Secretary of the Denison Scientific Association for year 1939–1940 210
Skriletz, Jesse, Color in light 211
Smith, Leon E., Cosmic rays 213
Sparking potentials 160
Spathognathodus Branson and Mehl 172, 187
commutatus Branson and Mehl 172, 178

Spathognathodus, deflexus Branson and Mehl, n. sp.....187, 188
regularis Branson and Mehl.....187, 188
sp. indet.....188
Steckle, Lynde C., Comparative psychopathology.....213
Relative efficiency of single versus multiple exposures in rapid memorization of visual forms.....1
Stickney, Malcolm E., Plant patriarchs: Big trees of California.....212
Synprioniodina sp. indet.....187, 188
Ulrich and Bassler.....187

Taphrognathus Branson and Mehl, n. gen.....181
varians Branson and Mehl, n. sp.....182, 188
Texas, New genera of Pennsylvanian crinoids from Kansas, Oklahoma and Texas.....32
Trichognathus Branson and Mehl.....185
sp. indet.....185, 188
Trophocrinus, characters of Trophocrinus.....78
tumidus Kirk.....74

Visual forms, Relative efficiency of single versus multiple exposures in rapid memorization of visual forms.....1

Wright, Frank J., Ohio landscapes.....216
Wrightocrinus, description of Wrightocrinus, n. gen.....92
jakovlevi (Wanner).....57
n. gen.....57

Xenocatillocrinus, characters of Xenocatillocrinus.....90
diagram of dorsal cup of Xenocatillocrinus.....88
